Gallery Collection

A WORK OF ART

A WORK OF ART...

THE DREAMGLAS® GALLERY COLLECTION

A series of custom-made replacement windows that capture the distinct textured look of stained glass in an insulating window. Unlike most other decorative glass available, DreamGlas® is produced by a unique process applied to the surface of the glass. Most patterns do not require a third pane - assuring a more practical and affordable window.

Each pattern is sized and customized for any shape, style and size of window including double hung, slider, picture, casement, bay, bow and garden windows and patio doors.

CRYSTAL ARROWS

The Crystal Arrows pattern allows you to decorate your favorite room with the elegance of Jewel Cut Glass combined with color and brass or zinc caming.

Came: Brass • Color: Peach

Not available for tempered glass (patio doors).

CRYSTAL BORDER

The Crystal Border pattern of Jewel Cut Glass with brass or zinc caming, color and texture provides depth and dimensionality to your home.

Came: Zinc • Color: Sapphire Blue

Not available for tempered glass (patio doors).

CRYSTAL FACETS

You're limited only by imagination with the Crystal Facets design, made of geometric shapes with Jewel Cut Glass, color, clear texture and brass or zinc caming.

Came: Zinc • Colors: Sapphire Blue, Green Pepper. Not available for tempered glass (patio doors).

ICE BORDER

Elegantly simple, Ice Border combines etched glass with caming to enhance and frame your view. Especially beautiful on patio doors.

Available with Brass, Zinc or Lead Came.

ICE DIAMONDS

A unique combination of etched glass and caming with your choice of color. Came: Brass • Color: English Red; Available in Brass, Zinc or Lead Came with color. Suitable for Legance™ Patio Doors.

GENTLE BLOSSOM

Blending colors and lead coming in a bow window will effectively emphasize existing decor. *Came: Lead • Colors: Mint, Smoke, Pale Yellow*
 Not available in Brass or Zinc. Suitable for Legance™ Patio Doors.

Each DreamGlas® customized window is made by hand. The possibilities of color variations, striations, random seeds (bubbles) and other natural effects mimic the look of stained glass and are not to be considered flaws. They are a natural characteristic of a hand-made product.

DreamGlas® Gallery Collection patterns repeat according to glass size. Lead coming is applied to both surfaces of the exterior pane of glass outside the home. Brass and Zinc coming are applied to both surfaces of the interior pane of glass inside the home where you can touch it. Cut and camed patterns are not available with tempered glass.

CHOOSE YOUR COLOR

Enjoy the vast color selection of the DreamGlas Gallery Collection that provides you with flexibility to complement all of the colors, shades and tones in your home.*

*Printed colors may vary from actual product due to the translucent nature of glass.

ICE GOTHIC

If you're contemplating a more traditional pattern, the Ice Gothic design features an etched border for a refined, translucent appearance. The border combined with curved lead coming, creates an effective rendition of historic Gothic arches. Available only in Lead. Not available with color.

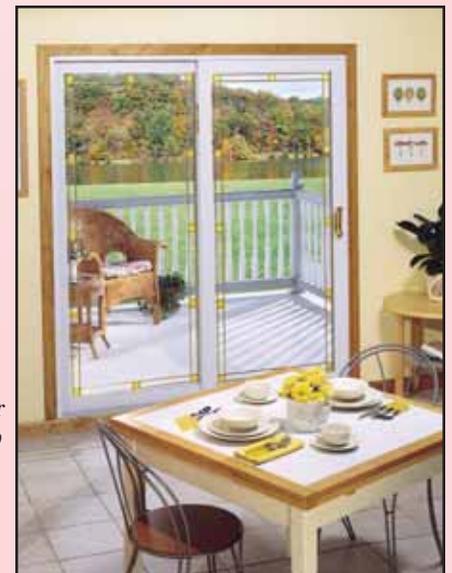

SOFT PETALS

Soft Petals pattern with lead coming and color lends a soft touch to any room. *Came: Lead • Color: Amber*
 Lead came is applied to both surfaces of the exterior pane of glass. Not available with Brass or Zinc came. Suitable for Legance™ Patio Doors.

SUNSHINE BORDER

The artistic impact of Sunshine Border design reflects good taste with its subtle silhouette outlined in accent colors and brass, zinc, or lead coming. *Came: Brass • Color: Amber*
 Suitable for Legance™ Patio Doors.

DREAMGLAS®

JEWEL CUT ACCENTS

Jewel Cut and Frostline Cut glass create a mood and expresses your unique tastes. These DreamGlas® accents create special impact on any application including the largest window in your home—your patio door.

Combined with the latest in insulating glass technology, the DreamGlas® Gallery Collection and Jewel Cut Accents bring form and function together in a blend of aesthetics and functionality.

Note: All patterns are available in Jewel Cut (JWL) polished or unpolished. Select patterns are available in Frostline Cut (FRO).
