ELITE™ STORM DOOR STYLES - 600 SERIES

ARCH TOP ALUMINUM STORM DOORS

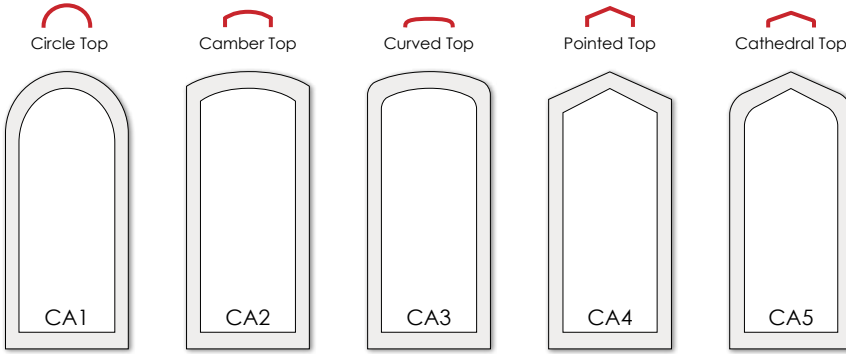

HMI's Elite™ aluminum storm doors balance form and function. Designed to protect your entry door from the elements, they are heavy duty and built to last. With 13 door styles and 24 matching entry door colors to choose from, your preference is sure to be met. Whether it is a traditional full view; our ergonomic self storing; or our archtop storm door you get what you want.

All glass is tempered safety glass. It is held in place using our exclusive cam lock system giving a secure fit. Choose from standard clear glass or Low-e glass.

Custom made to fit your entryway, our elite aluminum storm doors are available in 5 arch top shapes. They are pre-formed to fit your opening. The glass is held in place using our cam lock system giving a secure fit. Screens for 601, 602, 603 have center support bar.

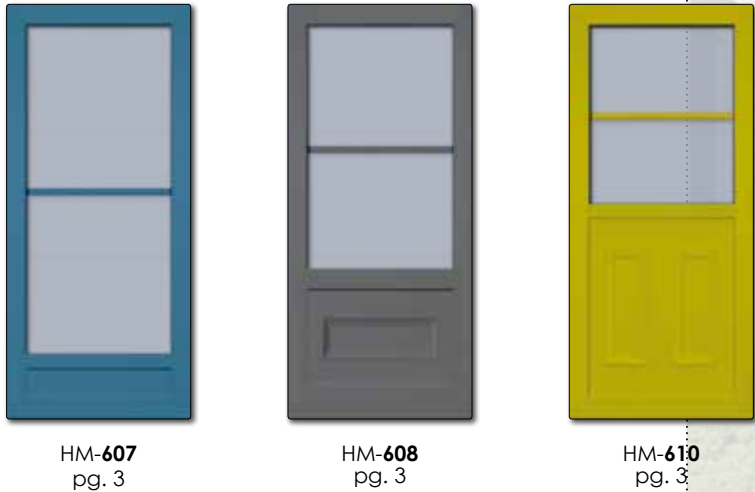

Arch top available for 601, 602, 603, 604, 606, 612

SELF-STORING GLASS - 600 SERIES

HM-607 Self-Storing Storm Door ▼

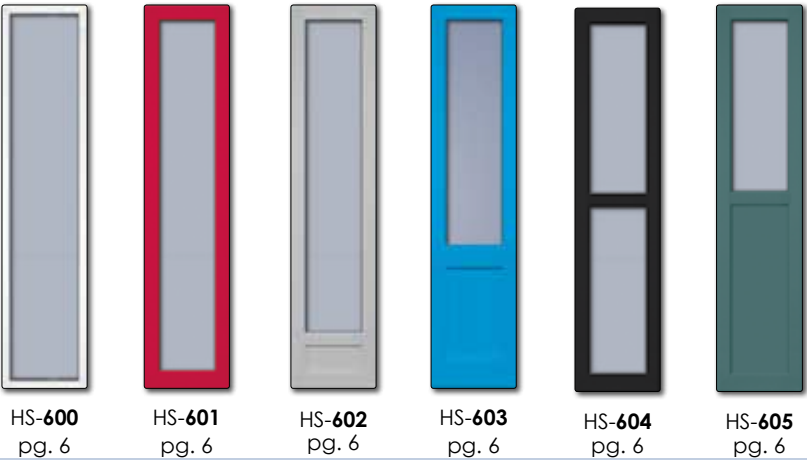

- Two moveable glass panels operate independently from top, bottom or both
- Glass frame designed to stay in track
- Nylon guide for smooth operation
- Removable screen
- Easy touch sliding glass lock

* FULL SCREEN WITHOUT CENTER BAR

Enjoy the beauty of your entry door glass without the obstruction of a center support bar on the storm door screen. The HM-601, 602 and 603 have a 1 ½" heavy extrusion aluminum screen frame eliminating the center bar.

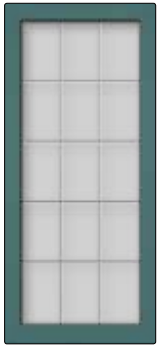

* indicates screens without center bar

- 5/8" Foam Insulation in all doors with a bottom panel
- Extruded Aluminum Corner Gusset System
- Galvannealed Steel Bottom Panel - painted same color as door
- 3" Aluminum Bottom Expander - painted same color as door
- Bottom Sweep
- Matching Pump

ALUMINUM STORM DOOR FEATURES

FOR 600 & 700 SERIES

Aluminum Extruded Hinges

Continuous extruded hinges, manufactured exclusively by HMI, surpass the quality and durability of anything else offered on the market. Extending from top to bottom, and reinforced with a 1/4" plated steel rod and nylon bushings, our extruded hinges will never sag or warp from the weight of the door. (Painted same color as door.)

Cam Lock System - No More Clips!

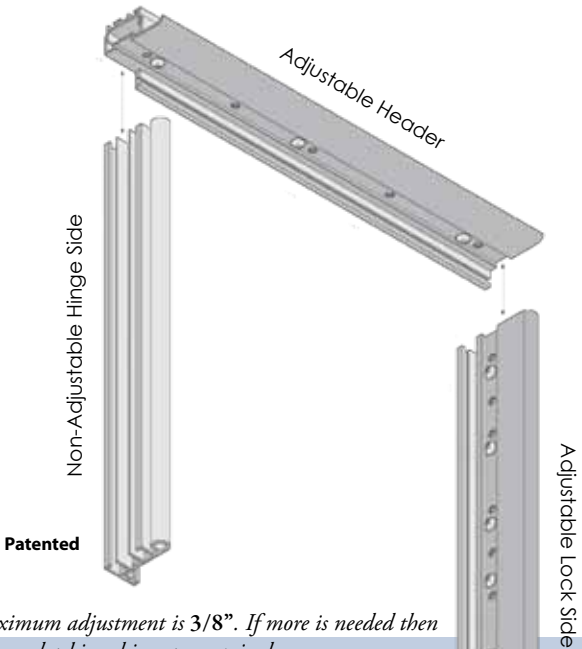

Offered exclusively by HMI, the Cam Lock System is one of the Elite™ and Classic™ Storm Doors innovations. It is free of loose parts and accessories, giving the homeowner problem free operation. All the hardware is hidden inside the door frame. One quick turn to loosen and another one to tighten! All you need is a penny.

OPTIONAL

Expandable Frame - Optional

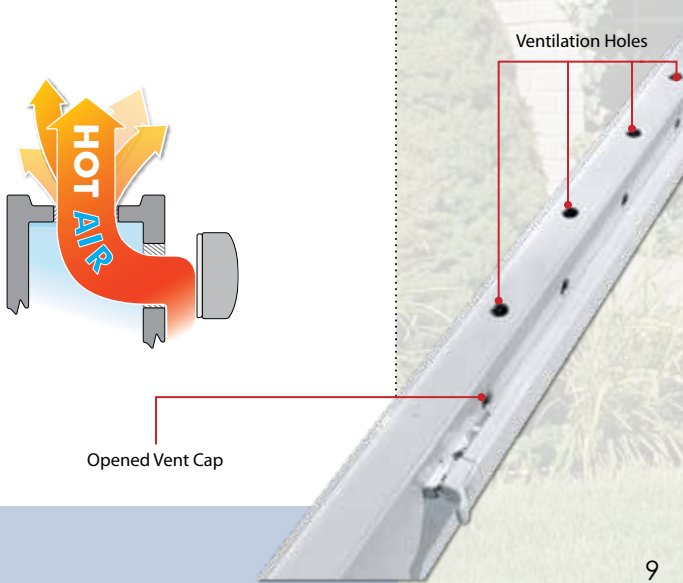

HMI's patented expandable frame helps make installation a snap and the appearance beautiful. It allows for adjustments up to 3/8". Made of extruded aluminum it creates a perfectly level opening to fit the storm door.

Note: The maximum adjustment is 3/8". If more is needed then backing shims are required.

Heat Ventilation System - Optional

Occasionally, heat becomes trapped in between the storm door and entry door leading to condensation build-up or damage to the entry door's paint finish. With the help of our Heat Ventilation System, the hot air is given a path to exit. On the top edge of the storm door are a series of holes, and a vent cap is installed on the face of the door. The vent can be opened during the summer and closed during the winter.

Our Classic™ storm doors give the value you are looking for, without sacrificing quality.

Designed to protect your entry door from the elements, they are heavy duty and built to last. Whether it is a traditional full view or ergonomic self-storing storm door you get what you want.

The glass is held in place using our patented cam lock system giving a secure fit. All glass is tempered safety glass.

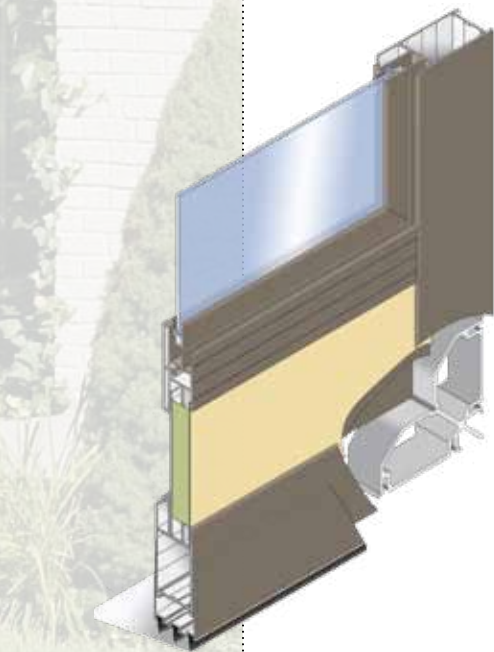

Available in 13 door styles, white is standard with 23 optional powdercoat colors matching the entry door.

SAFEGUARD™ SECURITY DOORS

With an HMI SafeGuard™ security storm door you don't have to sacrifice style for security. The heavy 16 gauge welded steel door frames give you the security you seek, and our designs give you the beauty you desire.

Every door is custom made to fit your entryway. Whether it is our traditional; modern; sunshine; forged or laser cut series there is a design that is perfect for your home.

There are 5 arch top shapes to choose from to fit your architectural needs. Most doors are available in arch top styles.

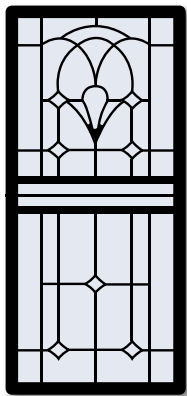

Black is standard with 23 optional powder coats matching our entry door colors.

VALUE LINE SERIES

SafeGuard™ value line doors have the same high quality and level of security as our premium doors. The difference is in the design. Value line doors have a more simplistic, economical design.

The value line series is only available with an economy #4 lever.

Note: Value Line Series doors are not available with a mailslot.

POWDERCOAT FINISHES

All Aluminum and Security Storm doors manufactured by HMI are coated with a "state-of-the-art" powdercoat finish to give years of trouble free enjoyment. The metal is cleaned and treated with chemically balanced detergents; The doors are then top coated with a powdercoating that is electrostatically applied and finally baked at 400° offering excellent adhesion, hardness, chemical resistance and weather resistance.
